

Consultation

Consultation

Initial Cost Range

Pre-Build

Contract

WE ARE LISTENING.

During your consultation, you will be able to explain the challenges of your current situation and how you hope to use your space in the future. John will listen to your concerns and immediately start working out solutions to help you use your space to the fullest. You have dreams and ideas; we have the answers and the experience.

We will meet with you for a 20-30 minute on-site meeting to discuss project.

Our primary goal is to understand how you would like the space to function and give you an approximate price range that you can expect.

If you have plans or an inspection report, we would look at them now.

John will take notes and get rough measurements to build a scope of work.

If you have a budget in mind, be sure to let us know so we can consider how to make your job fit your budget.

You will receive the Initial Cost Range by email within 24-48 hours.

John Newland
Owner, JOMA Construction

Over the last 18 years, John and his wife, Marielle, have lived in 9 homes that they have renovated or built in Athens. At the same time, John has been in thousands of homes and been a part of over 600 JOMA projects. His experience in home remodeling gives him a great eye on maximizing the possibilities in a home.
